REQUEST FOR RECONSIDERATION
(37 C.F.R. § 1.111)

Mail Stop Amendment
COMMISSIONER FOR PATENTS
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

This Amendment and Request for Reconsideration is submitted in response to an
outstanding Office Action dated August 11, 2005.

The claims are reflected in the listing of claims, which begins on page 2 of this
paper.

Remarks/Arguments begin on page 6 of this paper.

REMARKS

This Request for Reconsideration is submitted in response to an outstanding Office Action dated August 11, 2005, the shortened one month statutory period for response set to expire on September 11, 2005. Accordingly, no Extension of time is believed necessary. In the event that the Commissioner determines an extension of time or fee is due, applicants hereby petition for such extension of time, and authorize the Commissioner to charge any required fee to the Milbank deposit account number 13-3250.

I. Status of the Claims

Please cancel claims 31-48 without prejudice, and add new claims 49-56 as provided above. Claims 49-56 are now pending in the application. Claims 49, 55, and 56 are independent claims.

New claims 49-56 correspond respectively to previous claims 1, 2, 3, 4, 6, 7, 25, and 28. To assist the examiner, the amendments to earlier claims 1, 25 and 28 as reflected in new claims 49, 55 and 56 are provided below:

1. A communication system capable of outputting data selected by an information processing device on a user side from data to be supplied from an information processing device on a supplier side, comprising:

an output device including first connection means for connecting to an information processing device on a user side, second connection means for connecting to an information processing device on a supplier side, request reception means for receiving a request from said information processing device on the user side via said first connection means, data reception means for receiving data according to said request received by said request reception

means is a type that can prevent illegal data receiving by a user, and controls data transmission to the output device in accordance with a determination result. Applicants respectfully submit that this feature of the present invention is not taught or suggested from the cited references of *Chihara* and *Machine Design*, originally cited in the November 17, 2004 Office Action. *Machine Design* merely discloses to transmit a print job to a printer device connected to the Internet, which as previously discussed, fails to teach or suggest the above-described features of the present invention.

Accordingly, applicant submits that neither *Chihara* nor *Machine Design* individually or in combination disclose or suggest the presently claimed inventions, and withdrawal of the rejections is requested.

III. Request for Reconsideration

Applicants respectfully submit that the claims of this application are in condition for allowance. Accordingly, reconsideration of the rejection and allowance is requested. If a conference would assist in placing this application in better condition for allowance, the undersigned would appreciate a telephone call at the number indicated.

Respectfully submitted,
Milbank, Tweed, Hadley & McCloy LLP

Chris L. Holm
